

**AMENDMENTS TO THE SPECIFICATION WITH MARKINGS TO SHOW
CHANGES MADE**

Amend the following paragraph(s):

[0004] -- German Pat. No. DE ~~496~~ 198 31 482 C1 describes an injection unit in which the plasticizing barrel and the injection stroke drive, as well as the rotary drive to rotate the plasticizing screw, are disposed for linear movement on same guide bars which extend at an elevated disposition with respect to the machine bed.--.
